

FAMILY CARE CAMBODIA

2026
Third Quarter
Activity Report

Greetings! We had an amazing quarter of activities. In fact we had to add a 4th page to our NL just to share the main events! Thanks for helping make it all possible!

Summer Highlights

Daily English classes Kran Chek

Our grandchildren, Trevor and Leana, came from the USA for a 3 week mission trip. They taught sports, English, and preschool at our school in Kran Jaek & assisted English & IT classes in Siem Reap. We also were invited to Pursat to share the gospel in a house church and 2 different villages. We brought snacks for all; rice, towels & sarongs for the adults and school supplies for the children.

Four of our Cambodian godchildren took the National 12th grade exam in August. A huge accomplishment since their High school studies were shut down for over 2 years and they had to do most of their studying on their own. We are so proud of them all!

We celebrated our 69th birthdays and our 44th anniversary in July. We're so thankful for the life we live! We're claiming: "As thy days, so shall thy strength be" (Deuteronomy 33:25) for the coming years!

Siem Reap News Volunteers, Graduations and Major IT Lab Upgrade

Trevor teaching computer coding

Leana leads English discussion group

With the help of volunteers Trevor and Leana, we conducted half day English and IT camps in both Phum Thnal and Sandan schools. Special activities included learning basic computer coding, English question and answer discussion groups and learning a school cheer!

Alex later returned to Siem Reap to help officiate the graduation ceremonies at both schools and award certificates to our 6th grade classes.

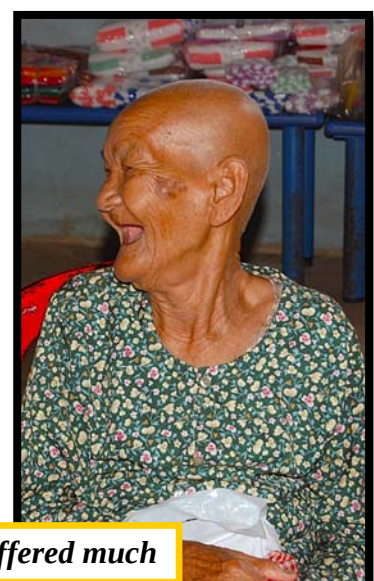

In September we received a generous grant from GTIA to upgrade our rural IT classrooms! Alex returned *again* to Siem Reap, this time to help our staff reorganize and rewire the IT labs and install 50 upgraded PC's! What a wonderful start for the next school year!

Elderly Ministry Launch

For years we've helped the rural, neglected elderly as often as we had the means, but now, thanks to a generous gift from a dear friend, we can reach out to these needy ones on a regular basis! In August we invited 52 folks to an event where we shared the good news of God's love, sang songs, played games and gifted each attendee with a generous care package of food, hygiene products, rice, new towels and sarongs. In September we traveled to the village of S'dope Aich, where 25 elderly were gathered to hear the Gospel for the first time; each receiving care packages and much inspiration. All of these dear ones are survivors of the Pol Pot regime and have faced unspeakable sorrow and hardship in their lives. Each event was bright and joyous as you can see in the photo collage.

Bringing hope, love and joy to those who've suffered much

Songs and games

Ruby Children's Shelter--Big Changes, Big Blessing

We've had some BIG changes at our children's shelter recently. A district Welfare official reached out for help with a very serious case of 5 young children (4 of them boys) whose father had been imprisoned for drug dealing and extreme domestic violence. Living in a one room tin hut with no door, furniture or food, the children's situation was desperate. Although we hadn't planned to accept boys at this stage, we knew God was leading us to take them in. When the district official came to visit our shelter she got quite emotional, saying that she never knew such a beautiful home existed in this province to help suffering children. The following week 14 delegates from the district governor's office came to visit and tour our facility. A week later, we were called to help another serious situation; 2 more little boys living on the verge of starvation with a mentally ill mother and no father. In a matter of 10 days we accepted 7 new children ages 6-14, 6 of them boys! They've been through serious trauma but are gradually healing now that they have a clean, safe home. They bathe daily and enjoy 3 meals a day plus snacks. They got fresh hair cuts (the barber complained about so many lice!), new clothes and each has their own bed. None could read, write or do math, but they're getting daily tutoring in the basics. They join our weekly creative art therapy sessions where we sing, do art and play fun games together. It's a new experience for them and they're loving it! And although there are plenty of behavior issues we need to work through, they've each changed so much in a few short weeks. A HUGE thank you to all who help sponsor this project. So many children need a safe, loving home.

Family Care Cambodia is a non-profit, faith based organization. The activities you have just read about were made possible through donations from concerned individuals. If you would like to sponsor our work or volunteer, contact us at familycarecambodia@pm.me or visit our website, www.familycarecambodia.org

We look forward to hearing from you!

Alex and Ann Soldner
